

# PENTABUS

Letter of Support and Declaration of Partnership for the project:  
***My Favourite Rockpool and Other Stories***  
A Songography AR Walk

From 2018 onward, Pentabus Theatre worked with Jennifer Bell as Lead Artist on ***One Side Lies the Sea***, a production developed over two years, with extensive research and development conducted in coastal communities across the U.K.

Due to the pandemic, the piece never toured, so we have extensive material which we would be delighted to be used, including a collection of high quality songs written by Jennifer Bell and John Holmes.

We are delighted to hear that Jennifer has found a new outlet for these songs, and they can be used to reflect and celebrate the West Penwith community that we spent so much time with in the development of the work.

We have liaised with ***One Side Lies the Sea*** (OSLTS) artists and project partners to secure agreements and licensing for Jennifer Bell's use of the recorded songs, originally created for the OSLTS production.

Furthermore, we would like to offer support to the project in the following ways:

- Provide Jennifer Bell with a licence to use the recorded songs.
- Support the project by promoting it to an online audience through Pentabus' social media channels with our 10,000+ followers across platforms.
- Support with creating agreement letters and contracts for artists.
- Artistic support – sounding board for creative project development
- Future funding application support – reading and feeding back on applications
- Be an ambassador for the project – incl. letters of support for funding applications

This support in-kind has a value of £2000

We can fully endorse Jennifer Bell as an artist, who deals sensitively with personal material from people who live in rural communities, and we are very much looking forward to seeing the OSLTS material repurposed into an audio walk, enhanced by AR. Our testing and feedback period revealed these songs to be moving, powerful and accessible for audiences.

We hope that you will invest in this project.
